PROFILE

A highly adaptable Software Engineer specializing in Front-end Development, driven by a passion for continuous learning and mastering new technologies. I excel in building robust, scalable web applications and thrive in collaborative, dynamic environments. My approach combines strong problem-solving and analytical thinking with excellent time management and flexibility, ensuring high-quality deliverables and effective teamwork. Confident in my ability to adapt, learn, and overcome challenges, I am committed to excelling in any project.

SKILLS

- Continuous Learning & Adaptability
- Problem-Solving & Analytical Thinking
- Collaboration & Communication
- Time Management & Organization
- Networking and Cybersecurity Fundamentals
- Control Systems, Automation, Robotics, Artificial Intelligence (Working Knowledge)
- Microsoft Office Suite (Word, PowerPoint, Excel)

LANGUAGES

- Arabic (Native)
- English (Intermediate)

WORK EXPERIENCE

Software Engineer (Front-end Developer) 01 / 2024 - Present

DeepSafer - Yemen

- Leading the development of robust, scalable, user-friendly web applications using advanced React concepts and modern front-end technologies.
- Implementing efficient state management (Zustand), complex routing (React Router, Remix Router), intuitive forms (React Hook Form), and optimized data fetching (TanStack Query, OpenApiFetch).
- Designing responsive UIs with Prime-react, SASS, Tailwind CSS, UNO-css, and D3.js for data visualization, ensuring code quality via ESlint standards.
- Collaborating cross-functionally for API integration, leveraging Git/GitLab for version control and Azure for deployments.

Quality Assurance Engineer 09 / 2022 - 11 / 2022

YottaGate Co. - Yemen

- Conducted comprehensive software testing and support to ensure application quality and functionality.
- Analyzed system requirements, identified defects, and collaborated with teams for issue resolution and performance improvement.

EDUCATION & COURSES

Diploma in Web Design and Programming (Full Stack Developer) 01 / 2023 - 6 / 2023

General Telecommunications Institute

Bachelor of Electrical Engineering (Computer and Control Engineering) 03 / 2017 - 11 / 2021

Sana'a University | Faculty of Engineering

TECHNICAL SKILLS

Front-end Development

- **React – advanced:**
  - State Management: Zustand , Redux Toolkit
  - Routing: React Router, Remix Router
  - Forms & Validation: React Hook Form
  - Data Fetching: TanStack Query (React Query) , OpenApiFetch
  - UI Suites: Prime-react, Bootstrap, D3.js
  - Internationalization : lingu
- **Styling:** SASS, Tailwind-css, UNO-css
- **Data Visualization:** D3.js
- **Quality & Tools:** Eslint, Git, GitLab, Azure
- **Core Web Technologies:** HTML , CSS , JavaScript , JSON , AJAX, jQuery

Back-end & Databases:

- **Programming Languages:** PHP , Asp.net , C# , C , C++ , JAVA , Python
- Database Systems: Oracle , MySQL , Microsoft SQL Server

PROJECTS

Restaurant Orders Page with Shopping Cart, Search, and Filter Capabilities | React.js, Redux Toolkit
